General Directions to Customers

The attention of customers is respectfully called to the following directions, which will, if followed, be an aid to purchasers as well as to us.

ORDER EARLY. We aim to execute all orders as soon as received, but during the rush season from March to May and again from July to September, slight delays are unavoidable, which, however, can be largely overcome by patrons anticipating their wants and ordering and taking delivery of their requirements early.

SAFE ARRIVAL OF PACKAGES. We guarantee the safe arrival of all goods sent by express or mail to points within the United States. If a package sent by express or mail is injured or lost, we will replace it as soon as informed of the fact. Goods sent any other way are solely at purchaser's risk. When customers fail to receive their packages in a reasonable time they should inform us, and at the same time send a copy of their order and any other information necessary to trace the goods. Claims for damage must be made on receipt of goods. We do not hold ourselves responsible for failure after delivery of the goods in good condition.

ERRORS. We exercise the utmost care in filling orders, yet in the press of business errors sometimes occur, in which event we wish to be promptly notified of the fact, and will make such corrections as will be satisfactory. Please keep copies of all your orders for comparison.

REMITTANCES should be made by Post Office Money Order, Express Money Order or Checks, we disclaim all responsibility when remittances are not made as above directed. Where it is not possible to obtain these, the letter should be registered. Coin should not be sent by mail.

WASHINGTON RESIDENTS must include 3% sales tax with remittance. This is required by the Washington State Tax Commission.

Please do not send personal check under \$1.50 unless you add 10 cents for collection fee.

CASH WITH ORDER. Please send money with the order sufficient to cover the whole bill. We decline sending goods "Collect on Delivery" unless remittance be made on account to guarantee acceptance.

NON-WARRANTY. Most of the failures with seeds, plants and bulbs are due to causes entirely beyond our control, such as unfavorable weather or soil conditions, too deep or too shallow planting, etc., which renders it impossible for us to guarantee success, and although we take all possible care to supply only such goods as will, under proper conditions, produce satisfactory results, we will give no warranty as to description, quality or productiveness of any of the seeds, plants or bulbs we send out, and will not be in any way responsible for the crop, and every order for articles named in this catalog will be executed on these conditions only. It must, however, be plain to everyone who gives the matter the slightest thought that it is to our best interests to send out only such stock as will not only grow, but prove true to name and description.

VISITORS always welcome. Iris season May 15th to June 15th. Delphiniums, middle of June through July. Dahlias, August until Frost.

MING YELLOW.	A yellow without a fault; clear, rich, smooth, without venation, big and slightly waved. Lighter in tone than Golden Majesty and much earlier. Wide petals, very bright yellow beard. Honorable Mention American Iris Society, 1938. Award of Merit, 1941.	75c

NARANJA.	Richest of all the yellows; huge blooms. Falls distinctly orange. Standards bright yellow. Honorable Mention American Iris Society, 1936. Late. Height, 40 inches. A most distinctive Iris.	35c, 3 for 90c
OLA KALA.	This is one of the best of the deep yellows. So intensely yellow it is almost on the orange side. Rich in color, brilliant in effect. A flaring, lightly ruffled flower on tall stem notwithstanding weather to a very great degree. It is an Iris people talk about and this is high praise indeed as we have an abundance of good yellow Iris and when one stands out it must be good. Height 36 inches.	\$1.50
ORMOHR.	Another Wm. Mohr seedling and the best so far. Perfectly hardy and easy to grow. Three feet tall with giant flowers of a uniform gray-lavender, veined violet. A faint rosy glow envelopes the entire flower and unlike the short William Mohr it has tall stems branching near the top. A gorgeous and unusual Iris.	50c

Altogether a top ranking Iris with the finest color seen in any Iris destined to enjoy the very greatest popularity. Bulbs for Fall Planting

DUTCH IRIS "TINGITANA" WEDGEWOOD

The largest of all. Huge flowers of azure-blue and a golden spot in center. Blooms earlier than the others with Tulips and Azaleas. These are the flowers you see in the florists windows in early Spring; they force well. Not hardy in cold Northern States unless well mulched. (Not less than 6 sold). **Large bulbs \$1.00 per Doz.; 25 for \$1.75; 2nd size 75c Doz.; 3 Doz. \$2.00 Postpaid**

Notice about planting Dutch Iris. Plant them as late in the fall as possible to prevent them from making a top Fall growth, which a severe cold early spell might hurt the bulbs. As soon as the ground freezes mulch them with dead leaves or evergreen boughs. Straw is not good for any mulching for it packs and is apt to harbor mice during the winter.

REGAL LILIES

This loveliest of all lilies is a well known favorite that should be in every garden. Of easy culture, but should be planted deep, in a well drained location. A rich sandy loam is best. Plant a group of these bulbs and you will be thrilled with their stately beauty next summer.

9/10 In circ. A large size bulb that will bloom handsomely

45c each; 3 for \$1.30

11/12 In. circ. Mammoth bulbs that make a grand display in your garden the first year.

75c each; 3 for \$2.00

Delivery is in late October. Plant them 5 to 10 in. deep according to size, in well drained rich soil (not clay). In cold climates mulch the bed after the ground freezes.
